

Designed with application variability and ever-changing industry demands in mind, the SDI Select 60 can navigate the dry ice cleaning spectrum with ease. Showcasing Cold Jet's patented shaved dry ice technology, the SDI Select 60 can clean large surfaces of thin, hard contaminants without damaging the substrate. And when faced with heavier contaminants, simply bypass the shaving media, turn up the aggression and clean using full 3mm pellets.

**SYSTEM FEATURES**

- Shave with any dry ice media (*standard block, 3mm pellet, nugget, slice, even leftover scrap ice*)
- Bypass for full 3mm pellet performance
- Increase blast pressure up to 250 PSI to clean the most stubborn contaminants
- Clean from as low as 50 CFM, using 1/3 of the compressed air, thus reducing noise levels and air usage vs. alternative dry ice cleaning systems
- Choose from any Aero nozzle or accessory to maximize flexibility

**DRY ICE CAPACITY**  
60 lb (27.2 kg)

**FEED RATE**  
0-6 lbs/min (0-2.7 kg/min)

**DIMENSIONS**  
24 x 28 x 43 in (61 x 71 x 109 cm)

**WEIGHT**  
343 lbs (155 kg)

**AIR CONSUMPTION**  
50-215 CFM (1.4 - 6.1 m<sup>3</sup>/min)  
at 80 PSI (5.5 bar) for standard nozzles

**BLAST PRESSURE RANGE**  
20-250 psi (1.4-17.2 bar)

**POWER**  
Electric

**THE POWER OF SELECTION**

Cold Jet's patented feeder technology creates shaved dry ice on demand, regardless of input.

*Simply switch to full pellet cleaning to penetrate the most difficult, thick contaminants.*
